

AVA

Written by Eva

AVA

When I first picked up Ava in mid December in MD, I thought, "Oh, she's small and dainty, not a rough & tough fox terrier at all", but she soon proved me wrong, having an attitude.

Fortunately the resident dogs thought her adorable & let her get away with much more than they usually tolerate. She was soon playing away with the springer and getting along with the grumpy Welsh terrier male. Christmas came & went, with Ava making herself at home, playing with wrapping paper, running around in the snow.

Challenge Applied Learning (SE BA) giving students the opportunity to develop their knowledge, understanding and skills through practical experience. This is achieved by giving students the opportunity to work on real-world projects, often in partnership with industry. This allows students to apply their theoretical knowledge to practical situations, develop their problem-solving skills, and gain valuable experience in the workplace. This is a key component of the Applied Learning programme, which is designed to provide students with the skills and knowledge they need to succeed in the workplace.

THANK YOU!
