

SASHA'S STORY

Sasha is one of the Missouri 11 who stayed a bit closer to home. She made her way to Oklahoma to be fostered and turned into a happy pet for a lucky family.

Sasha came into her foster and just seemed to know her old life was over and she did great from the start. She's a sweet girl, not aggressive towards my other dogs, is using the pet door, is healthy and is just a real joy. She was timid around strangers, but not aggressive towards them. Some common household noises would startle her, but she got better with each passing day. She discovered the full length mirror in my bedroom and is fascinated by it. She loves to run and play, and in true wire fashion will see what she can get into!

I gave her a spa day when she got here - bath and a hair cut - and she seemed to know just how pretty she is! She takes a day or two to warm up to folks, but does fine after that. She likes to be picked up and held and will ask for hugs.

Sasha
