

# TIFFANY'S STORY

Tiffany is settling in well at her foster home. Though she's reported to be 10, in Fox Terrier years, that's apparently not very old, as Ms Tiff loves to be out and about. She's also a quick learner, getting housebroken in about 2 weeks. She already knew about crating and sleeps quietly in her crate overnight. During the day, she's given free roam of the house, but mostly hangs out near the people. She isn't needy but does love to get pets and sit on her foster mom's lap to watch TV. When not 'taming' squeaky toys or checking out new kitchen smells, she's usually found on a rug waiting for the next adventure.

Though fine with 2 spaniels and a male Welsh Terrier, this little miss would do best in a home without other small female doggies. She's healthy, shows no aggression towards humans at all, is good on leash, calm and has barked maybe twice in as many weeks. She got on great with 9 & 13 year old boys visiting for 10 days. Because of her background, the noise level of younger children might bother her. Usually mellow inside, she wags away when you bring out a leash for walks, and skips around happily outside. She likes car rides, is fine about eating near other dogs, though with her non-hurried eating, she usually gets gated away so no one steals her food.

Please fill out an application and state Tiffany if you are interested in adopting her and taking time to learn about how it is to be a loved pet.
